

YANTRAS

powerful diagrams

Diagrams, which rise from an ancient Indian and Tibetan tradition, have profound continuities going across Oriental and old European cultures, which have examined the Universal order. Yantras harmonize their surroundings by their precise orderly construction and balanced composition.

The authors of the Yantra oil paintings, are professional craftspeople – Jan Cambal and Jindriska Cambalova – live and work in Prague, Czech Republic, and they lead a group of practitioners in a healthy concept of living. In this way they connect their philosophical artistic creation with their life practice.

The authors performed 16 exhibitions and their art works are within personal collections in the Czech Republic, England, Germany and Australia.

Masterworks of Yantras are exhibited and for sale in
